

Cameron Mukwa

Website

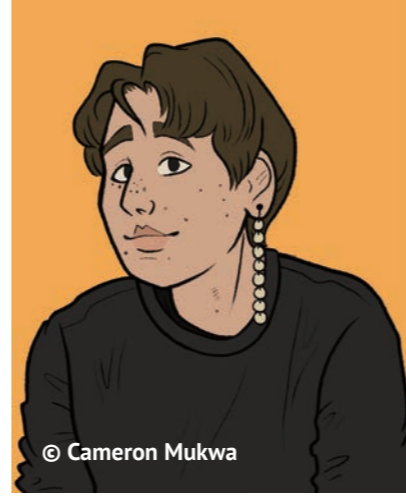

Cameron Mukwa illustrates graphic novels and nonfiction for middle grade and young adult readers, and is beginning to work in picture books. His work shares his Anishinaabe heritage through storytelling and pattern design, as well as his lived experience as a nonbinary transgender person. He loves bright colors and bold designs that represent people of all backgrounds, and his passion is making art about being trans and happy, showing kids of all ages that it's good to be different!
